

Merriam-Webster Dictionary

In addition to all the definitions from Merriam-Webster's Collegiate Dictionary, the app **offers voice search** – to let you look up a word without having to spell it – along with an integrated thesaurus, example sentences, Word of the Day, Favorites, and more.

A great tool for reference, education, and vocabulary building.

The app is free, and supported by ads.

EyeNote

Description

EyeNote is a mobile device application to denominate Federal Reserve Notes (U.S. paper currency) as an aid for the blind or visually impaired to increase accessibility.

Using EyeNote, a user can have the denomination of a note scanned and communicated back to the user. EyeNote works on the iPhone 3G and 3Gs, the iPhone 4 and 4S, the 4th Generation iPod touch, and the iPad 2.

This application does not authenticate a note as either real or counterfeit. Please refer to the license agreement on the iTunes App Store.

Dragon Dictation

Description

Dragon Dictation is an easy-to-use voice recognition application powered by Dragon® NaturallySpeaking® that allows you to easily speak and instantly see your text or email messages. In fact, it's up to five (5) times faster than typing on the keyboard.

With Dragon Dictation you can also dictate status updates directly to your Social Networking applications (Facebook and Twitter) or send notes and reminders to yourself... all using your voice. So when you're on-the-go, stop typing and start speaking — from short text messages to longer email messages, and anything in between.

Dragon Dictation supports a multitude of global languages. For a full list of currently supported languages visit www.dragonmobileapps.com.

REVIEWS

Press Reviews:

David Pogue - The New York Times : "I'm finding Dragon to be a much faster, more efficient way to spit out e-mail messages, notes, text messages and Twitter updates. It's really, really cool."

Mel Martin - TUAW.com: "Put this into the 'I didn't think they could ever get this to work on an iPhone' category. I'm talking about Dragon Dictation from Nuance, the developers of the very popular Dragon Naturally Speaking for the PC."

Arik Hesseldahl - BusinessWeek: "For the last few days I've been trying two Nuance iPhone apps, Dragon Dictation and Dragon Search on my iPhone. And while they're not the first voice search or dictation apps for the iPhone, I certainly like the results I've been getting."

iTunes Reviews:

Miker55 — "It's understood everything I've said. I can't tell you how many times I've been driving and wanted to text someone but couldn't. This app
